CYBER THREAT ASSESSMENT PROGRAM

ARE YOU PROTECTED?

To keep up with the latest threats, your network needs to constantly evolve. There are two ways to put your network to the test— assess it or wait for a breach to happen.

CYBER THREAT ASSESSMENT PROGRAM (CTAP)

Instead of waiting for a breach to wreak havoc on your business, choose a free CTAP assessment from ADKtechs. Our assessment can help you better understand your:

SECURITY RISK
Are your current network security measures effective? Make sure threats aren't slipping through the cracks.

PRODUCTIVITY
Are your apps operating in accordance with your use policies? Discover how your network is being utilized.

PERFORMANCE
Is your network security solution scaling to meet your needs? Optimize it for your *actual* usage.

DON'T WAIT UNTIL YOU'RE BREACHED.
